Message from Head Confectionery Sector

The confectionery industry continues to change with the times and deliver new varieties of products to an ever-demanding consumer. Confectionery remains a treat item that people should enjoy in moderation and our companies will innovate and develop their various ranges to recognise changing tastes. It's a fast-moving category!

This 35th Directory contains information on our manufacturers, the suppliers of ingredients, machinery, packaging and services to these companies and retailers and distributors of the products.

In June we will celebrate the 25th anniversary of **ConTech**, our confectionery technical conference. Come along and join the celebrations!

Thank you again to the **Manildra Group** who is again the major sponsor for the Confectionery Sector in 2020 and has provided the support necessary to bring this information to you, at no cost to our members.

Thank you also to our other advertisers, AAK Aust, Australian Blending Company Pty Ltd, Industrial Food Services Pty Ltd, Juremont Pty Ltd, Manufacturing Confectioner and MWT Foods.

The Directory is mailed to all our Confectionery Sector members, Australasian confectionery buyers in the major supermarket chains, smaller state-based supermarkets, retailers, wholesalers, petrol companies, convenience stores, movie theatre chains, the Vending Machine Association in both Australia and New Zealand and the Australian Newsagents' Federation. They use the Directory when sourcing product. This year the Directory will be on-line as a searchable document for our members. We also welcome new members to the Confectionery Sector this year: Industrial Food Services Pty Ltd, Lam Brothers Pty Ltd, Pacific Resources International Pty Ltd and QLM Label Makers.

Wishing you a prosperous and safe 2020.

A handwritten signature in blue ink that reads 'Tim Piper'.

Tim Piper
Head Victoria and Confectionery Sector

*Proudly sponsored
by Manildra Group*

Ai Group Confectionery Sector

The Ai Group Confectionery Sector offers members confectionery advocacy, news and information on the industry and assistance with technical confectionery matters as well as the added benefits of strong industry representation, broader resources and the full range of Ai Group services.

Technical and Regulatory

The Ai Group Confectionery Sector offers advice and support on technical matters, including assistance with labelling, product compliance and regulatory issues.

Confectionery information

The Ai Group Confectionery Sector will keep you informed on technical and regulatory updates through dedicated email.

Local and international industry media, market developments, retail updates and news will be advised through MediaScan, emailed weekly.

Expanding member networks

ConTech, the confectionery industry's premier event and other events, including member briefings, boardroom lunches and networking activities offer members important engagement opportunities.

Australasian Confectionery Industry Directory

Sent to all key contacts of member companies, confectionery buyers and executives in supermarkets, department stores and route trade as well as trade offices worldwide, the Australasian Confectionery Industry Directory is an excellent opportunity to promote your company's products and services. This year the directory will be available online for members.

Australian members will also receive...

Ai Group members enjoy access to the highest quality workplace relations and business advice, resources and support. They are represented by a powerful voice that influences the policy changes needed for Australian industry to thrive.

Sound & Practical Advice

Ai Group provides its members with sound and practical advice that ensures small issues remain small. Ai Group members are equipped with useful tools and informative resources to help them remain compliant and up to date with new rules and regulations.

Influence & Advocacy

Ai Group has enviable connections to the most senior leaders in both business and governments at various levels. Ai Group utilises this rapport to maximise the benefit to members' businesses, local communities and to broader Australian industry.

Overview

Business Solutions

Ai Group Workplace Lawyers

Ai Group's team of workplace lawyers offers leading-edge expertise and support in employment and industrial law, workplace health & safety and compensation law. Ai Group can assist in solving complex legal issues and can provide strategic advice to avoid problems in the future.

Human Resources, Safety & Workplace Relations Consulting Services

A key feature of Ai Group membership is the invaluable access to industry experts who are able to provide market insights and strategy to minimise future risks, as well as tailored advice and consulting services to ensure compliance.

International Trade

Ai Group's Trade & Export Division assists organisations to succeed in international business. We unravel the complexities of Free Trade Agreements, provide certificates of origin and help members keep up to date with global business developments.

Workforce Development & Training

Ai Group offers a complete range of nationally recognised training and professional short courses to match the skillset requirements of your organisation. Ai Group can also deliver training services customised specifically to your requirements.

Talent Solutions

Talent Solutions provides you with practical advice around your hiring and onboarding needs as well as career transition and outplacement services.

Apprentice & Trainee Centre

Ai Group's Apprentice and Trainee Centre has employed and trained more than 15,000 apprentices and trainees. It works nationally across a broad range of industries including engineering, manufacturing, infrastructure, automotive, transport & logistics, telecommunications, building & construction and business administration. Providing a full suite of services including hosting, recruitment and mentoring, Ai Group is here to assist.

Confectionery Sector

Timothy Piper

Head - Ai Group Confectionery Sector

In addition to his role as Head of the Ai Group Confectionery Sector, Tim Piper is Head of Ai Group in Victoria. As Head of the Confectionery Sector he works with the Confectionery Advocacy Group on key industry issues. Tim sits on the Executive Council of the International Confectionery Association (ICA) and in 2014 became Vice President. Tim also chairs the Industry Capability Network in Victoria which encourages the use of locally manufactured goods. He sits on the GS1 Board which oversee the use of barcodes, the Global Table Government Advisory Board and is also a member of the Victorian WorkCover Advisory Committee.

Jennifer Thompson

Technical and Regulatory Manager, Ai Group Confectionery Sector

Jennifer Thompson works with the Confectionery Reference Group and Confectionery Technical Committee managing the delivery of key components for the Confectionery Sector. This includes representation and advocacy work; technical, regulatory and labelling matters that affect the industry; product compliance. Jennifer also develops the successful ConTech speaker program. Jennifer is a resource for members of the confectionery industry and can provide a first point of call for a wide range of labelling, compliance, technical and regulatory queries. She acts as co-ordinator for the industry's self-regulatory Be treatwise® initiative and is a member of the Healthy Food Partnership (HFP) Portion Size Industry Best Practice Guide Working Group (IBPGWG).

Julie Gerrard

Member Relations Executive, Ai Group Confectionery Sector

Julie is responsible for the development and delivery of the full range of member services from information needs, member enquiries, MediaScan and the Australasian Confectionery Industry Directory. Julie manages industry sponsorship as well as organising the delivery of ConTech and other networking events.

Committees

Confectionery Reference Group

The Ai Group Confectionery Reference Group (CRG) provides industry leadership and guidance in relation to the Confectionery Sector activities, policies and strategy. The CRG has broad industry representation.

Fax: 61 3 9277 7482

Email: sales@corvina.com.au

Website: www.corvina.com.au

Corvina is a privately owned Australian company with almost 40 years' experience in food manufacturing.

The company produces a wide range of nutritional and chocolate products, sold throughout Australia and overseas.

Corvina specialises in private label and contract manufacturing. Our clients include supermarkets, multinational food companies, foodservice wholesalers, as well as specialty brand owners that operate in local and export markets.

Quality certified in HACCP, BRC (British Retail Consortium, Global Standard for

Food Safety), Organic, Kosher, Halal, RSPO and UTZ, together with numerous partner programs.

Research and Development: modern test facilities and qualified staff are available to assist with New Product Development, factory trials, range extensions and product improvements.

Versatility: we blend fruit, nuts and cereals, which can be chopped, minced or diced to any size. We work with simple sugars and no-added-sugar formulations. We make our own chocolate coatings in house i.e. pure milk and dark chocolate, compound chocolate, sugar free and yoghurt coatings. We can enrobe products in a full layer of chocolate, a decorative stripe, or bottom coat only. We understand nutrition and produce a variety of functional foods, formulated meal replacements and weight management products.

Products: Cereal and nut bars; sports, protein and energy bars; nutritional snacks; moulded chocolates, bars and blocks. Functional foods. Sugar free and carbohydrate modified. Weight loss products. Industrial chocolate and coatings.

Contract manufacturing specialists.

Originally sold from a pushcart, and later from a small factory under the first arch of the Sydney Harbour Bridge, Darrell Lea, named after the original Lea family's youngest son, has spent decades creating the finest chocolates and yummiest confectionery. Darrell Lea has seen massive changes in the last few years. They purchased the Lifesavers brand and Heritage Fine Chocolates (Melbourne) in 2018. The latter to establish a Chocolate Centre of Excellence for the launch of Darrell Lea block chocolates in 2019 and a push into branded Seasonal chocolate. With over 90 years of experience, our master confectioners pride themselves on making fresh quality treats, including Soft Eating Liquorice, Rocklea Road® and block chocolates, just a few of the unique products we have perfected since first introducing them to our shops in the 1950's. It's this commitment to our products that ensures Darrell Lea is still one of the original Aussie brands, determined to be a name you can trust and enjoy for years to come.

Products: Liquorice, Chocolate (moulded, panned, formed, enrobed, sugar coated), Lifesavers, Seasonal

Davies Chocolates was founded in Kingsgrove in 1932 by Sidney Davies. Sidney had a passion for making handmade chocolate from his kitchen. In time, he became a master at his craft and developed a loyal customer following. Sidney is no longer with us, but his passion for fine handmade chocolates and the original recipes on which the Davies' brand was built, still endure.

Products: Fondants, hard centres, jellies, peanuts and ginger coated with the finest chocolate. Snack bags and corporate gifts. Special occasion chocolates including Christmas, Valentine and wedding packages.

Fresh Food Industries is an Australian owned and operated food manufacturing company which specialises in the manufacture of a diverse range of products for the bakery and pastry cooks, ice cream, confectionery and home cooking needs industries.

As Australia's leading manufacturer of ingredients for the above industries, we can offer a range of products from the following categories:

Chocolate Products: Milk, dark, white, carob, yoghurt and other flavours such as cinnamon, toffee, butterscotch and dulce de leche products are available in a variety of forms and packaging sizes including: buttons, drops, droplets, mini chips, flake, flakettes, batons, pieces and blocks. Compound and couverture are both available and we can also assist with the development of customer specific chocolate products.

Cake Icings, Toppings & Decorations: Products manufactured include: Orchard 'Ready to Roll' Icing available in white, almond and a variety of flavours and colours. 'Sugar panned' non pareils (100's & 1000's). Sugar pearls. A range of sugar shell panned chocolate centre products: mini candy chocolate drops and rainbow choc drops. Sprinkles: rainbow,

choc and individual colours. All products are available using natural colours and a polished pearlised finish.

Confectionery Products: Panned chocolate and yoghurt coated confectionery products: almonds, nougat, peanuts and sultanas. Also available are multi coloured sugar shell panned choc centre products: mini candy chocolate drops, rainbow choc drops, almonds, peanuts and other products as required.

Icecream / dessert and bakery

inclusions: Fudge pieces small: caramel, choc, sticky date, mocha, bubblegum, nougat, raspberry, truffle. Candy pieces/chips: hokey pokey, peppermint, strawberry, raspberry, caramel, butterscotch, crème brulee. These products are available in a range of sizes and can be fat or choc coated for increased shelf life or for product application.

Bakers' Jams: Raspberry, pastrycooks apple raspberry (PAR), rasplum, raspberry tart, natural coloured/flavoured raspberry, apricot, lemon, caramel and fruit mince.

Fruit Fillings: 'Premium fruit filling 50% and 70% range' includes blueberry, strawberry, passionfruit, apple, raspberry, sour cherry, dark cherry and other to customer requirements.

Retail and private label: Nemar' brand of 100s & 1000s (artificial and natural colours) and sprinkles (rainbow and choc) are available in convenient shaker jars and bags. A range of chocolate buttons and chips are also available to be packaged under a private label brand.

Home cooking needs: "Prepact & Snowflake" retail brands of products include: raw and caster sugar,

icing sugars, salt, bi carb soda and breadcrumbs.

Contract packaging: We contract pack a variety of home cooking needs products under well-known consumer brands and these are available in a range of packaging including: sachets, gusset top block bottom bags, flat bags, retail cartons, jars and pails.

Product development: Fresh Food Industries New Product Development team is well known as being an efficient, confidential and timely provider of new product development for the food industry.

Our manufacturing facilities are certified: Our manufacturing facilities are certified: HACCP, BRC, Woolworths Supplier Excellence Program, Coles, Kosher, Halal, RSPO and UTZ.

Real ingredients. Delicious flavours.

Simply treatworthy

Springhill Farm's delicious hand-made treats are the perfect time out treat for your customers to enjoy at home, work, school or on-the-go. From heavenly melt-in-the-mouth slices and indulgent sweet balls, to wholesome bliss balls, there is a treat on offer to satisfy all tastes, moments and range of dietary needs.

Available in a variety of presentation options— from individually wrapped portions to vacuum sealed catering packs—our treats are packaged for optimum freshness, long shelf life and meet global food standard accreditation. Ever since we made that first Springhill Farm slice over thirty years ago, we've been spreading our love of heavenly treats countrywide. Today, Springhill Farm remains very much a family-owned business. You'll find us still proudly based in regional Victoria, still active in the community and still hand-making delicious wholesome treats with quality ingredients ready to be delivered nationally.

Whether it's a morning tea break or mid-afternoon sugar hit, our treats are ready to make it a special moment for your customers... and a convenient, rewarding sale for you.

Manufacturer of popcorn, paper, plastic cups and fairy floss. Please see www.popcorn.com.au or www.superpop.com.au for more details.

Products: In our SQF registered manufacturing facilities we produce buttered, coloured, caramel (three varieties), sweet and salty, cheese, salt and vinegar, chicken, pizza flavoured popcorn all of which can be packed in a bag, retail display box or decorative plastic tub. We have five flavours of 'green' coded popcorn for everyday sale into schools. We pack microwave popcorn for the major supermarkets and short run promotional runs are available. As we supply almost every cinema in Australia and New Zealand with their candy bar requisites, we have premium popping corn, popping oil and butter flavoured seasonings. We are also a manufacturer of paper and plastic cups including coffee cups, pizza boxes

and similar, so short run packaging for promotional purposes is available. And if you wish to make your own popcorn, fairy floss, waffles or sno-cones, we have a full range of equipment and ingredients always in stock.

We are now actively engaged in developing new lines of popcorn for a wide variety of customers. It is an area where we can use our synergies in product development, packaging and manufacture of product to achieve sensational results.

Brands: Movietime Popcorn, Classic Popcorn

1958 was the year that the Rose and Richard Adler opened the very first Chocolate Box store in Camberwell, and shared the result of their chocolate making skill with an appreciative Melbourne public. The next generation, Marion Adler Bishop and Gary Adler are carrying on the family tradition. During the 70s The Chocolate Box began opening stores beyond Camberwell and expanded their product lines to include the finest in confectionery from Australia and around the world, whilst still remaining true to their core values of customer service and product quality. A family owned and operated company since it began, The Chocolate Box currently has eight stores in the Melbourne CBD, Camberwell, Melbourne and Sydney Airports, Alfred Hospital, Royal Women's Hospital, and a shop beneath their offices in Port Melbourne.

Products:

Chocolate: Almonds, Aniseed Rings, Belgian Gianduja, Cashews, Cherry Liqueurs, Chocolate Blocks, Cocoa Dusted French Truffles, Coconut Roughs, Coffee Beans, Filled Bars, Frogs, Fruit & Nut, Milk & Dark Ginger, Hard Centres, Chewy Caramels, Honeycomb, Licorice, Macadamias, Mint Truffles, Orange Straws, Peanut Clusters, Peanuts, Raspberries, Rocks, Rocky Road and Turkish Delight.

Corporate: Chocolate Cigars, Chocolate Gold Coins, Wraparound Chocolate Neapolitan Tablets, and Golf Balls.

Confectionery: Coconut Ice, Dusted Cinnamon Almonds, Honeycomb, Licorice, Marshmallows, and Vienna Almonds.

Fudges: Caramel Fudge and Chocolate Fudge

Gift Boxes: 50th Anniversary Assortment Box, Adlers Twist Wrapped Truffle Assortment, Twist Wrapped Carousel Collection, Cherry Liqueurs, Classic Collection, Cocoa Dusted Truffles, Black Box Truffles (original and non-alcoholic varieties) and Chocolate Macadamias.

Hampers: Christmas Hamper, Treat Yourself, Treat A Friend, Congratulations, Party Box, Celebration and Survival Kit, and new ones for every season.

Nougat: Apricot & Honey Nougat, Cranberry & Pistachio Nougat & Deluxe Nougat.

ADM Australia

Ground floor, Suite 1
10A Julius Avenue
North Ryde NSW 2113
Australia

Email: thomas.kotsonis@adm.com

Mobile: 61 (0)447 494 057

ADM is one of the world's leading Agricultural Processors and Food Ingredient providers, delivering a range of specialty food, feed and industrial ingredients made from corn, soy and wheat globally, among others. ADM Australia serves local customers throughout the Pacific Rim, including New Zealand and the South Pacific, out of their Sydney, Melbourne and Auckland offices. In 2014, ADM acquired WILD Flavors GmbH, a global leader in natural food and beverage ingredients and flavours. The acquisition of WILD further broadened ADM's unique portfolio of specialty ingredients. The WILD portfolio offers a full range of flavour, colour and ingredient/compound solutions, fruit juice concentrates and blends. WILD's extensive range of food and beverage ingredients also includes extracts, mint oils, sweetening systems, seasonings, specialty ingredients, taste modifiers and fermentation technologies.

As ADM continues to grow its footprint in Australia and New Zealand, the team on the ground delivers their full capabilities in flavours and specialty ingredients to local customers. In early 2017, ADM opened a brand-new Customer Innovation Centre in Sydney, with the philosophy of enhancing customer experiences, offering a collaborative and interactive approach to innovation. The Innovation Centre has a flavour creation facility, with a strong

focus on beverage and confectionery, along with state-of-the-art application laboratories for beverage, dairy, bakery, confectionery and other food categories.

Products: Include natural flavours, natural colours, beverage compounds, fruit preps, choc preps, extracts/distillates, mint oils, clean label sweeteners, fruit granules, maltodextrin, dextrose, high intensity sweeteners, stevia, glycerine, acidulants, lecithin, soy protein isolates, edible beans, hydrocolloids, fruit granules, plant-based functional extracts, nut butters emulsifiers, fibre and vitamins acting as antioxidants.

Brands: WILD flavours, WILD colours, Fibersol-2™, DHA Onavita (DHA Algal and Flaxseed), Novosoy, Profam, CardioAid, Textura, Fruit-up and Clarisoy

ATP employs over forty industry professionals in a team that processes large volumes of grape marc, grape lees and desludge by-products created from the wine making process to produce a natural product from material that would otherwise end up in landfill. ATP is seen as a key driver of sustainability across the industry with a leading edge renewable energy plant that was completed in 2014 that has led the industry in re-defining key inputs and outputs. The Natural Tartaric Acid that is produced is accepted in all our markets as being of the finest quality as is our Cream of Tartar. These two products are used Australia wide predominantly in the wine industry, the pharmaceutical industry and of course into our food manufacturing industry.

Products: Natural tartaric acid, cream of tartar and grape spirit.

Industrial Food Services (IFS) was founded in 2002 and has grown to become one of Australia's largest manufacturers of industrial compound and chocolate products.

Specialising in enrobing and moulding applications, inclusions, fat-based pastes and ice cream coatings, IFS services the bakery, confectionery, dairy, health and wellness markets.

With expertise in high protein, no added sugar, no added dairy and probiotics, IFS is able to offer a broad suite of products that will add value to your brands.

In 2018, the business was acquired by Fuji Oil which has now placed us as the World's 3rd largest supplier of industrial chocolate. The acquisition has allowed for vertical integration and access to a broader portfolio from our sister companies, including Fuji Oil Europe (Belgium), Blommer Chocolate Company (USA) and Harald Company (Brazil).

Products: Chocolate and compound kibble, buttons, chips, pastes and ice cream coatings.

Website: www.naturex.com

Naturex sources, manufactures and markets natural specialty ingredients for the food, health and cosmetic industries. The company actively supports the global shift to natural by directly addressing key consumer expectations through an offer built on two main focus areas: My Natural Food and My Natural Selfcare. Naturex's portfolio includes colours, antioxidants, specialty fruits and vegetables, phytoactives, and numerous other plant-based natural ingredients, designed to help its customers create healthy, authentic and effective products. Naturex's global commercial presence includes a sales office in Sydney to service the Australian and New Zealand food and beverage industry directly. Naturex Australia's head office and manufacturing facility are located at Kings Park, Sydney, NSW.

Products: Our food and beverage business unit provides natural ingredients that add value to finished products by improving their organoleptic characteristics, such as color, flavour, taste and texture, while adding to their functional and nutritional properties and extending their shelf life.

Olam Cocoa

Queensland Cotton Corporation Pty Ltd

55 Wyandra Street
Newstead QLD 4006
Australia

Tel: 61 7 3250 3300

Email: au.cocoasales@olamnet.com

Website: www.olamgroup.com

Olam has built its cocoa business by combining our unique and unparalleled strengths at origin with market presence as well as research, information, analysis and futures market expertise. Over a number of years, we have clearly demonstrated our capability in the supply chain to offer traceability, transparency and trust for our customers. In October 2015, we created a new entity, Olam Cocoa, following the acquisition of ADM's deZaan Cocoa brand.

In combining a leader in cocoa bean sourcing with one of the world's leading cocoa processors, we have formed a fully integrated cocoa business that supplies cocoa beans and cocoa products, establishing a new dynamic in the industry.

Our enhanced, joint proposition offers breadth, depth and scalability -- from origin sourcing, trading, market intelligence and research, risk management, value-added processing and supply chain solutions, to sustainability, R&D and product innovation. This allows us to provide customers with far-reaching benefits that meet their needs.

Olam are strongly involved in many long-term sustainability initiatives, either Olam led or in partnerships within many of the countries in which we operate. We are able to source both traceable and certified beans and have numerous Organic, Fairtrade, UTZ and Rainforest Alliance

programmes as well as having initiatives in the award-winning Livelihood Charter (OLC).

Olam Cocoa has marketing offices serving every major consumption market:

Australia, Belgium, China, Dubai, France, Italy, Japan, Russia, Singapore, Spain, Switzerland, Ukraine; UK and USA. We also leverage other group offices worldwide.

Our team is a highly motivated group of 2,400 chocoholics who believe in their business and the cocoa and chocolate industry

Products: Semi-finished cocoa products - cocoa powder, liquor and butter.

Brand: deZaan Cocoa

Website: www.rohagroup.com

Roha is one of the fastest growing brands of food colours in the world, manufacturing and distributing natural food colors, colouring extracts, customised colour blends and synthetic food colours across the globe through its 21 Sales offices, 12 manufacturing plants and application laboratory including Australia.

Roha specialises in offering technical expertise and colour application solutions for its diverse range of customers across confectionery, food and beverages, dairy, nutrition and health / pharmaceutical, feed and personal care.

Roha Australia, based in Victoria, is well equipped to support the complete OCEANIA region and cater the needs of the confectionery industry locally with an application laboratory, technical knowhow, product range, blending facility, stock point and a committed sales team to support and provide solutions for our customers.

We offer high level of flexibility, service and product customisation to our customers, which enables us to service the complete range of customers in the **confectionery** industry.

Products:

Futurals: Is a range of natural shades of colouring foodstuff produced from carefully selected ingredients, usually fruit and vegetable juice concentrates, which come as single ingredients or blends to give the desired colour shade

and intensity. Futurals is part of the 'clean label' trend that consumers prefer worldwide.

Natracol: The comprehensive Natracol range fulfils the challenge of today's consumer. In virtually every aspect of life, people are favouring the products that are drawn from nature – pure, wholesome and healthy. Especially in the world of food and drink, where taste and flavour aren't compelling consumers propositions any more. Quality that ensures consistency in shades, batch after batch, time after time. *Natracol – literally endorsed by Mother Nature.*

Idacol: synthetic colours have their own strengths – safety, availability, precision and versatility, which make them ideal for food and pharmaceutical applications. Available in both water soluble and insoluble forms, the combination of widest range of colours and forms gives it brand leadership status

Brands: Futurals, Natracol, Idacol

The Product Makers is an international flavour company focusing on development, support and creative innovation to help deliver cost-effective quality products. Our team is committed to customer satisfaction, providing reliable and flexible service to help deliver your product on time and on budget

Products: Liquid flavours: alcohol, propylene glycol, triacitin and oil base. Emulsion flavours: weighted and unweighted, encapsulation.

Powder flavour premixes: savoury and snack flavours; spray dry flavours; stabilisers - dairy and juice; functional and vitamin premixes; natural colours.

Latest technology in flavour encapsulated systems. The Product Makers introduces its latest technology *Flavour Rods*.

Flavour Rods are rod shaped micro encapsulated flavours, developed by encapsulating liquid and solid flavouring materials to maximise flavour intensity and shelf life.

Natural flavours and ingredients are derived from the best sources to create exciting natural flavours. The Product Makers are dedicated to provide complete natural flavour solutions to respond to the increased demand for natural and authentic products.

NZMP is the dairy ingredients brand of Fonterra

Fonterra is a global dairy nutrition company owned by 10,000 New Zealand farming families. As the world's largest dairy exporter, Fonterra exports NZMP products to more than 130 countries, accounting for over 20% of global dairy trade.

New Zealand's pasture-based dairy farming and Fonterra's quality-controlled supply chain mean they can create high-performing NZMP products for food and beverage companies all over the world.

Partner with them to help your success

As the global dairy ingredients brand of Fonterra, NZMP offers customers stringent safety and quality standards and a rich history of dairy expertise and innovation. The result is unmatched product performance and the broadest portfolio in the market – meaning more solutions for more customers..

HMPSAustralia

HMPS is a South Australian based company which specialises in the development and manufacturing of high quality machinery specifically to suit our clients packaging needs. Our bespoke approach to creating packaging machinery allows our clients to tailor the machines to their requirements, enabling them to react to the changing market conditions and their customers wishes. As one of the only remaining Australian companies in this industry, we pride ourselves on being Australian designed and engineered, and place great importance on ensuring the innovation of robotics and engineering continues to develop and remain in Australia.

Products: Australasia's largest robotic picking packaging and palletising company. Robotic picking including product handling: carton packing, flow wrapper packing, tray loading, vision systems, quality checking, X-Ray systems, integrated picking – packing and palletising in one cell, product identification.

Case packing with various packaging formats: retail ready packaging, ready meals, tray and sleeve packing, regular slotted case, tray and hood, wraparound case, tray and lid, designs to meet

Aldi, Coles, Woolworths and Costco specifications.

Palletising and warehousing: single and multiline robotic palletising, robotic de-palletising, rainbow pallets, automatic stretch wrapping, label application, automated guided vehicle integration.

Ti Asia-Pacific (formerly Shorko Australia) has been a supplier of BOPP films for over 30 years with its headquarters based in Wodonga, Victoria. All products are EEC and FDA certified and manufactured locally in our world class factory to industry best practices. Ti Films deliver quality, value and convenience supported by local technical service and our design and innovation group. As part of a global group, TiAP currently offer film solutions from its nine production sites across the world with a capacity in excess of 500,000 tons per annum. Ti develops manufactures and markets BOPP (biaxially-orientated polypropylene), BOPLA (biaxially-orientated PLA) and CPP (cast polypropylene) packaging and labelling films for the snacks, confectionery, bakery, biscuits, fresh produce and tape markets. Ti offers a portfolio of CEFLEX compliant solutions with high quality transparent, white voided, metallised and high barrier films to its customers in more than 100 countries.

Products:

Packaging – transparent: TSA– standard heat seal-range, two side treatable; TLA – heat sealable with advanced skip characteristics; TXS – very wide heat seal range; TAF – anti-fog film for fresh produce and pre-prepared foods

Packaging – white voided: EXH – ultra wide heat seal range for high performance

HFFS; EHD – high density with gloss print face; EMG and EGL– wide heat seal range for high speed HFFS and VFFS; ELD – high yield, high gloss and excellent stiffness
Packaging – metallised: ZSA/ZSS – Standard barrier film for single web and lamination; ZMB – medium barrier for single web and lamination; ZBA – high barrier, extrusion lamination, ZXX – High Barrier, adhesive lamination
Label – In-Mould: LIT Transparent – High gloss film for laminated or single web; LIL and LIM white voided – very high yield for applications requiring “orange peel” effect ; LIK White voided – high yield medium density for smooth surface effect ; LIH white voided – High density for applications requiring a high gloss finish, Titanium™ LTZ metallic IML film – for high value and luxury brands with metallic shining finish effect;
Label – WAL reel fed: LGL white voided – high gloss, high yield.
Label – WAL cut & stack: LCL white voided – high gloss, very high yield.
Label – Self-Adhesive: LSP white voided – high yield, one side white, one pearlescent; LPL white voided - very high yield, one side white, one pearlescent.

Brands:

EXTENDO™ - High barrier films
NATIVIA™ - BOPLA biodegradable film
DEPROSA – decorative film for Graphic Arts and luxury packaging
Titanium™ – Metallic IML Film

Website: www.efca.com.au

The confectionery, bakery, and snack
markets are converging and all three
markets are served by the equipment
manufacturers represented by EFCA.
Virtually all types of confectionery
products can be made using equipment
supplied by the companies that EFCA
represents - including chocolate, sugar,
jelly, liquorice, marshmallow, etc.
Many confectionery products include
a baked component – wafer / biscuit /
sponge - all of which can be made on
equipment supplied by the companies that
EFCA represents.

Snack products include fruit bars, cereal
/ grain / muesli bars, cakes, laminated
products (sweet and savoury), biscuits,
cookies, expanded cereals, etc.

The packaging systems and styles
offered by EFCA's principals includes all
types of primary packaging (foil / bunch
/ twist / band, etc) as well as buffers/
accumulators, feeding systems and
flow-wrappers and secondary & tertiary
packaging (cartoning / pick and place /
vision systems / case packing, palletising).
Individual machines or complete
production and packaging lines can be
offered by the companies that EFCA
represent.

Products: EFCA makes the EFCA chocolate
spray gun for the manufacture of panned

confectionery products. The spray gun can be used with chocolate, compound, yoghurt or carob. EFCA also offer a dripper head as an alternative. Ancillary equipment such as storage tanks, pumps and chocolate ring mains are also available..

Eriez is a leading manufacturer of production, inspection and metal contaminant removal systems for the Australian and Regional food processing industries. Eriez' range of metal detectors, magnetic separators and vibratory feeders, screeners and conveyors are designed for the specific needs of the confectionary, food and packaging industries. Products range from Xtreme Metal Detection systems and the RE7 Tube Circuit, to our line of Magnetic Separators which includes highly effective Plates, Grates, Traps, Tubes and Sight Glass Magnets in standard industry sizes with various strengths. Eriez Metal Detectors can be combined with the strongest Rare Earth magnets to provide superior protection against both ferrous, non-ferrous and work-hardened stainless steel.

We also offer equipment audits, inspections and testing to ensure detectors and magnets are compliant with the HACCP International Food Safety Standards. Eriez has an extensive range of innovative equipment to ensure product purity, from the moment ingredients enter your plant to the time the final packaged product is shipped. Whether you are looking for small ferrous or non-ferrous metal pieces, needles, tramp metal or digger teeth, we can provide you with a Metal Detector to solve practically every metal contamination problem.

Eriez is recognized as world authority in separation technology.

Products: Xtreme Metal Detectors, Tube Magnets, Plate Magnets, Grate Magnets, Trap Magnets, Magnetic Humps, Bin Vibrators, Light and Medium Duty Feeders, Vibratory Controls, Vibratory Conveyors, Vibratory Screeners, PolyMag Plastic Additives

At Foodmach, our challenge is to put you behind the wheel of the fastest, most powerful production line solution possible. Our comprehensive range of flexible automation will accommodate your every packaging need, from filling, labelling, inspecting through to conveying, case packaging, palletising and pallet wrapping. Even better – we'll integrate all our equipment with your existing line and give you a line management system that gives you comprehensive live data and full operational control.

Our experts will help you with safety compliance, upgrades and reporting, 24/7 support programs, full project management, factory relocations and everything in between. Just ask us. Best of all, we do it fast. We can offer the shortest lead times in the industry (outside of our partner technologies) because we have Australasia's largest manufacturing space, a large team of specialists and we do everything in-house. Foodmach is the fastest way to get control of your packaging line.

SICK is one of the world's leading manufacturers of sensors, safety systems and automatic identification products for Factory Automation, Logistic Automation and Process Automation applications.

Whether automating factories or optimising distribution centres, or monitoring emissions from a stack, SICK provides cost-effective solutions.

Our company has pioneered a long line of industry firsts – such as the first safety light curtain, the first colour sensor, and many more. These innovations provide solutions to virtually every industry application.

SICK Pty Ltd was established in Australia as a wholly owned subsidiary of SICK AG (Germany) in September 1982 with the New Zealand sales office established in March 1998. And in July 2016 the New Zealand office was established as a subsidiary, SICK NZ Limited.

Our position as market leader for sensors has been built and continues to be built, on the reputation of the quality of our products and our know-how to solve complex applications

Products: Analyser solutions, automation light grids, detection and ranging solutions, distance sensors, dust measuring devices, encoders, fluid sensors, gas analysers, identification solutions, magnetic cylinder sensors, motor feedback systems, opto-electronic protective devices, photoelectric sensors, proximity sensors, registration sensors, safety switches, safe control solutions, software products, system solutions, traffic sensors, ultrasonic gas flow measuring devices and vision.

Brands: SICK, Murrelektronik

Email: sales@ptlmachinery.com

Website: www.ptlmachinery.com

PTL specialises in designing and manufacturing innovative chocolate and bar machinery.

PTL was founded with a clear objective:

to create high-quality machinery focused on simplifying operations and improving efficiencies. We collaborate with our customers to ensure our chocolate and bar machinery meets their needs.

Jim and Mary Halliday founded PTL in 1988. Prior to forming PTL, Jim worked as the chief engineer in a chocolate factory, designing and maintaining chocolate machinery. It was from this hands-on experience, both in machinery design and chocolate processing, that Jim saw an opportunity in the market. Optimise your line efficiency and enjoy the flexibility to manufacture multiple product variations on the same equipment, as well as meeting your regulatory hygiene and allergen obligations with PTL's innovative chocolate and bar machinery.

PTL machinery meets these needs by reducing your cleaning and changeover times with its easy changeover technology and wash-down capabilities. Our objective is to work closely with our customers, deliver effective solutions and build long-term partnerships. We promise a personal approach, where you deal directly with the people at the heart of the business.

We supply: bar machinery: forming, cooling, cutting, enrobing; **chocolate machinery:** melting, tempering, enrobing, depositing, moulding, cooling

Brand: PTL

Fax: 61 3 9558 9551

Website: www.gs1au.org

GS1 Australia is the leading provider of standards and solutions for over 20 industry sectors. We introduced barcoding to Australia in 1979 and today we enable more than 17,000-member companies, of all sizes, to become more efficient by implementing the GS1 system.

We bring businesses, associations and industries together. This blended community comes to GS1 Australia for advice, networking and solutions to their supply chain challenges. We partner with, and help showcase, members, solution providers and industry leaders to demonstrate and encourage supply chain best practice.

GS1 is part of a worldwide network of GS1 organisations in over 100 countries and a global office based in Brussels, Belgium. As a member-based, not-for-profit organisation, our charter is to supply and manage barcode numbers, operate and manage supply chain standards accordance with our global GS1 system and to provide related solutions and services to our members.

Services: We offer a range of services to help you expand your knowledge, do more with the GS1 system, and create an efficient and effective supply chain.

Haribo is a market leading sugar confectionery business with manufacturing facilities throughout Europe distributing to markets throughout the world. The business began life in 1921 when its German founder, Hans Riegel, developed a children's treat in the shape of a little bear made from fruit gum. The first ever gummy bear, the Goldbear, was born and laid the foundation for the businesses ongoing success. Since then Haribo has grown to become one of the most recognised and trusted brands the world over.

Today the business is still family owned producing quality innovative products under the Haribo name.

Lam Brother has a vision to incorporate the fragrant goodness of the healthy and nutritious flavours of Asia as a meal on the Australian dinner table. Asian food is recognised for delicious, exotic flavours with vast nutritional value. Our passion for authentic ingredients, to replicate restaurant quality, is what drives us to inspire all generations of Australians to enjoy their own taste of Asia with family and friends.

Since it's humble beginnings as a supermarket in Victoria Market Precinct in 1989, Lam Brothers has grown to become a recognised name in the supermarket chain. Our passion is creating relationships with our suppliers and customers which reflect a commitment to family and community wellbeing through delicious and nutritious food products. Lam Brothers has successfully partnered with Asia and the USA over the last 30 years to offer exciting products to the Australian market.

Brands: We hold exclusive distribution rights with Glico (Pocky), Vamino, V-Soy, YumYum, KCT Sauces, Heng's, Chap Ayam Belanda and Eaglobe Brand. We are also able to offer supply to all products manufactured by New Lamthong, Por Kwan, TCC, Chaokoh, Dede and Kings Choice plus many more, as well as food solution service to manufacturers and restaurant/hotel groups.
